Tutorial Objectives:
- to review philosophical aspects of modelling

Tutorial Task:

1. Criticize and discuss the following statement: ‘…social complexity’ should be distinguished from ‘technical complexity’ (Weinberg, 1981 as quoted by Hirschheim et al, 1994)
2. Discuss the difference between soft and hard systems thinking.
3. Discuss the difference between problem and product domain and how that reflects on a conceptual or formal model.
